

CONNECT TO THE MA DATA_SERVER

9-25-07

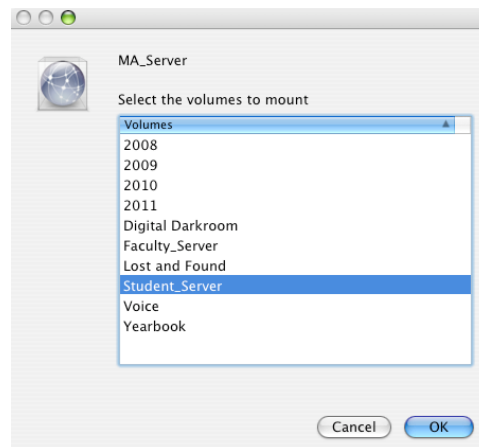

1. Click the “Connect to the MA Server button on the dock next to the “Math Applications” button.

2. Enter your user name and password and click the “Connect” button.

3. Select the Student_Server from the volumes list and click “OK.”

4. Using the column view window navigate to the Student_Server_Extra -> Classes -> and choose your class folder. **Note:** Some folders will be “drop boxes” which allows you to put files in the folder but not seem them when you are done. Some folders will be “read only” which means you can’t add or modify files in that folder. Other folders will allow you to Read and Write.
